

Risk Management

Resource Development Group Limited (RDG), and its subsidiaries, recognises that risk management is an integral part of good management practice. We are committed to providing the foundations and organisational arrangements for designing, implementing, monitoring, reviewing, and continually improving risk management throughout the organisation.

Risk Management will form part of strategic, operational and line management responsibilities and be integrated into the strategic and business planning processes for RDG.

RDG recognises that an integral part of planning is understanding the risks which may affect our ability to achieve our objectives.

Accordingly, RDG is fully committed to regularly identifying, assessing and managing its risks within the spirit of good governance and to increase the likelihood of meeting its objectives.

Our objectives are:

- ✓ To ensure risk management is adopted throughout RDG and its subsidiaries as a prudent management practice
- ✓ To safeguard the organisations assets, people, financial, property and information
- ✓ To ensure that all employees are made aware of the need to manage risk and to promote a culture of participation in that process
- ✓ To protect RDG from adverse incidents, to reduce its exposure to loss and to mitigate and control loss should it occur

- ✓ To ensure the ongoing unimpeded capacity of the organisation to fulfil its mission, perform its key functions, meet its objectives and serve its customers
- ✓ To reduce the costs of risk to the organisation, its clients, the community, stakeholders and interested parties

RDG will periodically review this policy to ensure that our organisation continues to monitor and accomplish a high level of risk management and aims to mitigate the affects of risk to all involved parties.

Andrew Ellison
Managing Director
